

Duuo Vendor Insurance

AFMA has partnered with Duuo to provide vendor-members with easy access to their online vendor insurance solution.

Why do I need vendor insurance?

Our vendor liability coverage protects you if a liability claim is filed against you in the event you cause Bodily Injury or Property Damage to the event host or visitors to your booth during the time you are operating as a vendor. With Duuo, you also have the option to include coverage for your own business property.

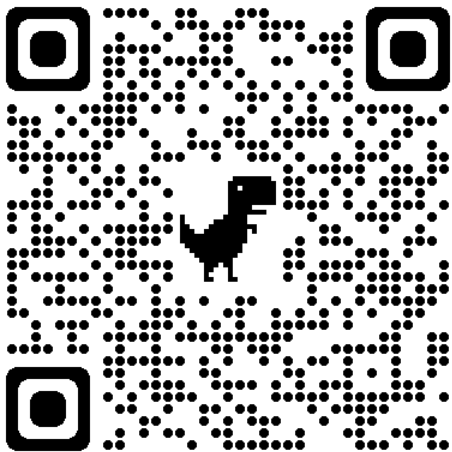

Duuo covers vendors selling a range of products, including soaps, skin care products, local produce, crafts, and more!

TIP

Your Duuo vendor insurance policy can be used to cover you at multiple markets, not just AFMA events!

REMINDER

All vendors are required to have vendor insurance in place when attending an AFMA event.
